MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing indorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months; the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-light hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places i the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

A LUXURY.

Of all the accessories to the Toilet, none is more enjoyable than a rich fragrant perfume What can be more pleasing to the senses than the aroma of blooming flowers, and not only pleasing, but actually healthful? Pathologically the use of perfumes is exceedingly valuable, their well-known prophylactic properties exercise a most beneficial influence. To the invalid there is nothing more agreeable or refreshing than the Citrine odors of purely floral fragrance, avoiding always the heavy sweet perfumes of France and England, which are so apt to cloy and satiate the sense of smell, rather injuring than refreshing those persons of delicate organisation. In

MURRAY AND LANMAN'S
FLORIDA WATER.

We have the pure and natural fragrance of flowers in bloom, unaltered and unimpaired by the addition of any foreign substances, and entirely free from the heavy sweetness above referred to. It is, we believe, the only perfume possessing, in a marked degree, the power of

REFRSHING AND INVIGORATING

Both the body and the mind. It is adapted equally for the Handkerchief, the Toilet, and the Bath. For the first-mentioned nothing can be more exquisitely delicate, yet full-bodied; weeks after sprinkling, the handkerchief is found to exhale a perfect wealth of delicious aroma. For the Toilet it is quite unequalled, a few spoonfuls mixed with the water in the basin tending greatly to soften and beautify the skin; and we believe it to be a Perfume suitable for use

IN THE BATH,

Where its wonderful refreshing and invigorating properties give it peculiar value. In some parts of the world it is customary to empty from three to six bottles into each bath: but this quantity is not necessary—from a half to a whole bottle will be found to produce the most delightful effect, filling the bath-room with clouds of fragrance, and imparting a delicious buoyancy to the fatigued body and mind.

BEWARE OF COUNTERFEITS.

Always ask for the Florida Water, prepared by LANMAN and KEMP, New York, who are the sole Proprietors of the genuine article.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

This new and well-known Establishment is fast becoming renowned for the quality of its Portraits, the superiority of which can easily be seen by comparing them with others produced in the River Plate.

The Establishment is conducted on the latest and most improved principles. The Instruments and Apparatus were selected with personal attention, and are of the modern manufacture, and its Proprietors spare no efforts or expense to give to their customers the most entire satisfaction. It makes a speciality of the beautiful Porcelain Pictures, and they were the first to successfully introduce them into this country. They have met with great success for the past year and a-half, and still continue daily increasing in popularity. It is the only place where they are to be obtained in perfection. Other Establishments make what they call Porcelain Pictures, but the people of the River Plate are fast learning to appreciate a good article.

Pictures from Life, or copies from old Carte de Visites, Amtrotypes, and Daguerreotypes, enlarged and painted on Porcelain, making the most perfect and durable Pictures yet introduced in Photography.

Also the new Rembrandt style of Cards, which has become so very fashionable in the United States, was introduced some time since, and are becoming very popular with the customers of this Establishment.

Paintings of any size desired, in Oil, Water colors, and Indian Ink, by the best artists in the City, and at very reasonable rates.

SATURDAY, JUNE 18, 1870.

THE CENTRAL ARGENTINE LAND COMPANY,

The French ship Vauban entered Rosario on Wednesday morning with another batch of immigrants for the Central Argentine Land Company. This is an event of great importance. Vessels now pass our roads bound up the river, crowded with immigrants, and, with the exception of one or two parties in Rosario, no one seems to know anything about it.

There is probably no subject of higher importance for the future of this country than this Central Argentine Land Company. Skilfully managed, it is destined to people a tract of country hitherto only occupied by Indians; but it is not in the simple occupation or settling of this vast railway territory that we read its importance, but in its being the first scheme of the kind that has the appearance of practicability, and being, as it were, the precedent land company for R. Plate economists.

The exact programme of this Company, as set forth in the prospectus, may interest the general reader:—

"The objects for which the Company is established are, the acquisition by transfer from the Central Argentine Railway Company, Limited, of the lands conceded to that Company by the Government of the Argentine Republic, on condition of their being peopled, and also of certain fiscal lands which the said Government engaged to obtain in order to make over the same to that Company, and the acquisition of any adjacent or other lands convenient to be held therewith, or other lands in the Republic. Also the colonisation and management of such lands, and the development of the resources thereof by the division thereof into convenient allotments, the construction of roads and other works, the erection of dwelling houses and other buildings, and the effectuation of such other improvements as may be considered conducive to the good management, settlement, and efficient cultivation of the said lands. Also the making advances to emigrants, or intending emigrants for their passage, or for the purchase of tools, stock, or seeds, or otherwise making advances for the purpose of encouraging or facilitating emigration to, or settlement on the said lands, or the efficient cultivation thereof. Also the sale or granting leases of the said lands, or any of them, to emigrants or others. Also the entering into contracts with emigrants or intending emigrants, agents or others, and doing all acts which shall be or be deemed to be incidental or conducive to the acquisition, settlement and cultivation, management, letting, sale, and disposal of the said lands, or to the success of this Company's operations in connection therewith."

Mr. Perkins, the agent of this Land Company, is a Canadian by birth, and a gentleman of lengthened experience in these countries. No better or more capable man could have been named to the post, and when Mr. Perkins left for Europe we fully expected he would be able to direct to the River Plate much of the emigration at present going on between Liverpool and the States. For it must be admitted that with all the noise made here about immigration the best class of all we miss, namely, the hard working laborers who daily leave in hundreds the wharfs of Liverpool. These are the men after all to build up a country; and much as we like the Swiss and Basques, they are not the men the Americans look for. Since we adopt everything American now-a-days in the River Plate, it is strange that in a matter of such vital importance we should form an exception.

There is in the United States a railway called the Illinois Central Railway which has been constructed much on the same terms as the Central Argentine Railway; that is to say, by means of immense land grants. That line has been built mainly on the credit of the land conceded. The land scheme has proved one of the greatest successes in the whole of the United States. Subjoined is a list of the sales of land by that Company for the last half year of 1869. We commend it to the attention of those who take an interest in the future of the country—it shews pretty clearly what can be done when people go to work the right way.

The Illinois Central Railroad Company have reported to the Auditor of State the following statement of lands that have been paid in full and deeded by said company to the purchaser for the six months commencing May 1st and ending October 31st, 1869. The number of acres sold and the price paid are shown by counties:—

We give the foregoing list to show Mr. Perkins that had he tried Liverpool instead of Lausanne, he might have secured for Santa Fé many of the purchasers who figure in the above statement. If there are any to doubt this, we point to the Henly Colony, which has just come out in the packet, and which for many reasons we should have preferred had come to the Central Argentine Land Company instead of Bellville.

The Central Argentine Land Company is not a Swiss concern; its capital is English, and its management English: why, therefore, should the settlers be all French, Basque, or Italian? If English emigration to the Plate was impossible, we could understand it, but we have before our eyes the Henly expedition, which shows what can be done in England in the way of immigration to the Plate.

The Vauban is welcome, and we trust her passengers will become prosperous, contented, and happy; but there is ample room for a few English vessels from Liverpool, and railway land as good and as cheap as in Illinois can be had in Santa Fé.

Could the Argentine Government point to such a list of sales on the Central Argentine land grant as we give above, there would be less necessity to send special agents to Europe to raise loans.

CORDOVA AND ITS SIERRAS,

[By F. R. G. S.]

The exterior of the Jesuit church, contrasted with that of the Cathedral, is not very imposing. But when I enter, I see on the inside groined roof a wealth of beauty (in gold and azure) of carved arabesque, impossible for me to describe.

Amongst the curiosities preserved here is an original letter in a frame, written in July 1550, by San Ignatius Loyola to the Padre Simon Rodriguez, Preposito Provincial of the Company of Jesus in Portugal and to all the other heads of Jesuit missionaries throughout the world. "The subject of the letter is to communicate the jubilee of that year, issued by Julio 3rd, at the time Pope of Rome.

Going up stairs to the library (not the old library once so famous—but a few hundred volumes of theological works), we pass a pair of roughly chiselled wooden images, done, I believe, by an Indian. One is of our Saviour, the other of the Virgin Mary. Each has its niche in the wall; and about the former they tell a legend.

It seems, that between the expulsion of the Jesuits in 1773, and their return in 1838, this grand old church with its adjoining residences was used as a military barrack. The story goes that a soldier, when ascending these stairs one day, in a frolic of desecration put the lighted end of a cigar into the mouth of the Saviour's statue with the intention of setting fire to it. He had no sooner done this than he fell down in a state of syncope, and remained insensible for several hours, when he partially recovered, and left the place all trembling.

The dates of building are cut and painted black on small square blocks of stone high up in the towers and facing the orphan's school. They are done on Piedra de Sapo or Soap Stone with which the mountains of Cordoba abound, and which is believed to be a non-conductor of lightning.

The Superior of the Jesuits now in Cordoba, the Padre Nicasio Mola, who is an Italian, accompanied us, with a few more of the Padres, to the library, the garden, and the catacombs. The library of the few hundred books contains a pair of large globes, with some mathematical instruments that were left behind after the breaking up of the college, and which they had to the year 1866, in a large inclosure of azotea houses, facing the Calle Ancho, and a few squares above the Hotel de la Paix. This is now occupied as a military barracks.

In 1838 the Jesuits returned to South America, but in a very different position from that which they held in the old times here. Behind the church of which I have already spoken, are two gardens well cultivated with European vegetables. A sun-dial is at one end, with the year 1836 marked on it. There is a well in one of these patios with a pump attached, from which they send water to all the upper parts of the house, wherein they have their cloisters. The Jesuits were practical in everything.

We descended to the catacombs, the entrance whereof is outside the railing of the front altar, and from which in former times there was a tunnel leading to the Jesuit noviciate, six squares away. This may probably be the tunnel spoken of in the STANDARD some short time ago as having been recently discovered in Cordoba. When you go down you see several skulls of the priests who died here, with arm, leg, and rib bones placed on the top of the niches in which the bodies had been deposited. All of these sepulchres are broken open—I won't say it was with the sacrilegious intention of seeking for treasure—except one; this is of the Rev. Padre Ignatio Innes, who was killed in the earthquake of Mendoza on the 20th of March, 1861, having been at the time of the occurrence hearing confession in a church, beneath the ruins of which his corpse was found.

The priests here are only seven in number. "We have now little or nothing," said the Padre Rueda to me, whilst his face was beaming with contentment; "we are allowed the use of this church only on toleration; for the Government of the day may turn us out of it at any minute. But we are satisfied; for we know that the sainted Loyola, the founder of our order, told the early fathers that suffering in all times and climes was to be their heritage, as well as that of their successors. And as for the sorrow," he concluded, "who would complain, when casting his eyes there?"—pointing to a beautiful work of art in a very ancient and most exquisitely finished crucifix which was hanging on the wall of the sacristy.

Coming out of the Jesuit's Church, we turn on the right to enter the doorway which leads to what was formerly the College of Monserrat, but which is now the University of San Carlos, and has for its rector Dr. Don L. Vasquez.

The College of Monserrat was founded, Dr Graty tells us, by Dr. Don Ignacio Duarte de Quiros in A.D. 1685! ——But, goodness gracious, we have had enough already—enough for any 'Old Mortality' of musty tombs; and the sepulchral smell from the catacombs in the Jesuit's chapel still hovering about! The air coming down from the hills is blowing with a seductive freshness, as if even a hermit could not resist its moving influence. Perhaps not; but I am neither a cloistered monk nor a hermit; and so, with a 'longing, lingering' look at these beautiful Sierras—that seem so near as if they were only at the end of the street—with an idea that nothing here is so sublime as—

"The wild pomp of mountain majesty."

I turn from the University door, and in half an hour, with a few pleasant companions, I find myself in a carriage on the road to the Sierras.

(To be Continued.)

THE ORIENTAL WAR.

SIEGE OF CERRO LARGO.

After the Battle of the Spurs near Minas, on May 27th, the rebel army under Aparicio proceeded by easy marches towards the town of Melo, capital of the department of Cerro Largo, and arrived in front of the place on June 7th, the Government army of General Castro being either unable or unwilling to pursue them. The garrison of Melo counted only 200 men, while the rebels are variously stated to have been from 300 to 500 strong, which led Aparicio to expect the Commander, Nicomedes, would at once surrender. Aparicio on the same day (7th) sent the following challenge:

"The General-in-Chief of the Army for Restoring the Laws notifies the Gefe Politico, D. Nicomedes, that if he surrenders within the term of half an hour the fullest guarantees will be accorded to himself and all his men. Failing this we shall assault the town within an hour, and make Don Nicomedes responsible for whatever bloodshed may ensue.

"May God preserve you many years.

"TIMOTEO APARICIO."

It was about seven o'clock in the morning, and the rebel army was drawn out in columns converging on the town. The Commander Nicomedes, however, was not intimidated, but sent the following defiant reply:

"The undersigned Gefe Politico has received a note signed "Timoteo Aparicio" calling on me to surrender the town. I neither know who is this Timoteo Aparicio, nor what right he has to expect that I will lay down my arms and my authority, simply because he has gathered around him a lot of vagabonds to lay waste the country. On the authority I hold I hereby notify him and his followers that they will have fifteen minutes to lay down their arms if they wish to escape condign punishment.

"NICOMEDES CASTRO."

Nicomedes at once dismounted his garrison (200 cavalry) and distributed the men among the various barricades, while they shouted "Viva el Gobierno!" "Muera Aparicio!" In this manner they awaited the enemy's attack for some hours, until Nicomedes thought it advisable to begin the fighting by going out to meet them. Major Ojeda with twenty mounted riflemen and a small infantry force sallied out, and a slight skirmish ensued. Some of the rebels managed to get into the out skirts of the town but were hotly received at the barricades and ran away, leaving behind them two officers and one soldier killed and a captain and six soldiers wounded, also two saddled horses and one lance. Ojeda's men came back in good order, without loss of a single man, while the rebels retreated across the Tacuary, encamping at nightfall near Paso de Conventos. Nicomedes reports the three rebel leaders, Aparicio, Muñiz, and Benites to have been on the ground, and estimates their total force at 300 men: he adds that they have a splendid supply of horses, and if they attack the town a second time he will give them another warm reception.

MONTEVIDEO,

Wednesday.

President Batlle seems to be letting grass grow under his feet since his establishment of head-quarters near Florida: it is true his army is small, being put down officially at 890 horse, 200 foot, and two pieces of cannon, but is probably in reality much less. Minister Bustamante paid him a flying visit, the object of which is still a secret, and then returned at once to town. Indecision and expectancy are the characteristics of the Government movements, while the rebels ride roughshod over the Republic without hindrance. It would be difficult to say what General Castro is doing or means to do; his Paraguayan experience serves him to little purpose.

The only signs of activity are in the districts north of Rio Negro, where Gen. Caraballo keeps a close watch: the principal passes of the river are guarded, viz:—

Paso de Toros, Capt. Alegre.
Paso de Quinteros, Maj, Ramos.
Passes of Caizorria, Palmar, Yapeyu, &c., Maj. Carabajal.
Mercedes, town of, Cap. Bernabé.
Tres Arboles, Capt. Rojas.
Don Esteban, Maj. Arvelo.
Arroyo Sanchez, Capt. Gaspar Colman.

Besides detached parties at various points of the Rio Negro. Gen. Caraballo is expected to return from Salto to Paysandu about the 15th, with 800 men. Major Ramos crossed the Rio Negro a few days ago in pursuit of a Blanco force under Olivera. Small bodies of rebels infest even the departments near town, and last week a band of twenty men paid a visit to Mr. Buschenthal's beautiful estancia at Santa Lucia.

Fortunato Flores has not been sent in as a prisoner, but has arrived at Mercedes 'on commission' with Major Casares and other officers.

The townfolk of Minas are digging trenches around the town to defend it against the Blancos.

M. Vaillant's surveys of the proposed railway to Pando show a length of thirty-one kilometres, or nineteen miles, and he expects to have it completed before the end of the year.

The executors of the late Mr. James Bell, who died at Asuncion, are called on by the Courts to answer a demand by Don José Baltar.

The estancia Santa Josefa, near San José, comprising five leagues of land, with houses, cattle, &c. is to be sold by auction on the 1st July,

INDIAN INVASION IN SANTIAGO.

EXTRAORDINARY QUESTION AT ROSARIO.

The Dutch Consul at Rosario has got into a difficulty with the Port Captain, Sr. Echevarria, about the arrest of the cook and a sailor on board the brig Rodite. The Consul requested the Port Captain to send and arrest them for disobedience, but Sr. Echevarria replied that according to Argentine law he must first try both the captain and the sailors in question. The Consul insisted that this was a matter purely for consular jurisdiction, the Consul being ex-officio judge on board all vessels of his flag, according to the Law of Nations. The Port Captain replied that Mr. Consul Gorsse was not a fit person to quote the Law of Nations, and claimed that the peculiar jurisdiction of a Port Captain was in all offences committed in his port. The matter, therefore, remains just as 'ab initio,' and it is difficult to see how it will end.

Mr. Lawrence one of Henly's colonists, was thrown from his horse on Sunday and much injured, but is now declared out of danger. Dr. Hertz is also recovering from a bad fall.

The Corrientes papers mention the presentation of a new altar service to the Merced church of that city by Dña Vicencia Gomez.

Advices from Santiago del Estero to June 3rd report an invasion of Indians from the Chaco to within 22 leagues of the town, the nearest approach known since 1855. General Taboada is gone in pursuit.

EDITOR'S TABLE.

Yesterday was a remarkably 'slow' day in town; nothing new—social political or commercial. Business men say a holiday always spoils the week, and from their point of view they are right. An English broker summed up the situation by saying that things were most 'uncomfortably dull.'

The event of yesterday was the sale of Dr. Leeson's Lares and Penates. There was a large attendance of buyers, and the prices given for the various articles were in all instances high, and in very many extravagantly so. Mr. Billinghurst may add another item to his already lengthy list of auctioneering victories. The principal purchasers were Messrs. Elortondo, Casa, Aguirre, Casares, and Padre Machado. Dr. Leeson has again taken up his quarters at the Hotel de Provence.

An impression that the thirty million loan lately proposed by Government for the purchase of the Central Argentine Railway will be thrown out by Congress daily gains ground. This result would not be received with disfavour by a large portion of the public, who consider the measure as uncalled for at present.

Mr. and Mrs. Heino's farewell concert came off on Wednesday evening, and notwithstanding the numerous attractions advertised at the other places of public amusement, the hall was crowded with a numerous and fashionable audience, but H.E. the President was unable to attend. The various 'morceaux' for piano and violin and violin solo were executed in a manner in perfect keeping with the fame this talented couple have acquired here and in every part of the world they have visited. We regret that extreme pressure on our space obliges us to confine ourselves for to-day to these few general remarks on the entertainment. Madlle Estagel sang a couple of songs very pleasingly, and Sr. Rossi, the well known wizard, performed some of his best tricks. We may be allowed to give this gentleman a hint. His tricks are good, but they take too much time to get through; better have simpler ones that do not require the assistance of his complicated though beautiful apparatus.

The foreign residents in Rio seem to have been 'all abroad' this year in celebrating some important anniversaries. The Queen's birthday was kept by the Britishers on the anniversary proper (the 24th) though the day fixed by our Foreign Office was the 28th; and the "sun of May" was 24 hours behindhand, the glorious reminiscences of the 25th being duly honoured by the Argentines in the Brazilian capital on the 26th.

There is some talk in sporting circles of a match between Mr. Chiarini's horse Sylvan and any other to be named; one of the conditions being that the 'jocks' must be ladies.

Respecting the cattle disease and the proper inspection of those animals slaughtered for consumption we find a very interesting anonymous communication in the *Tribuna*. The writer suggests that it is very easy for animals that have come a long distance to pass the inspectors as sound before being shut into the corrals, where they may afterwards fall sick, and proposes as a remedy that they should be examined when entering the shambles, and if permitted to be slaughtered that the butcher shall be obliged to exhibit in his stall the tongues of all the oxen the meat of which he sells: This is a very sound and practical suggestion, and it merits the prompt consideration of the competent authorities.

Madame Gase will take her benefit at the Opera House on Wednesday evening next, on which occasion she will appear as Valentine in the Huguenots. This excellent artiste merits a bumper at the hands of our musical public. She came on our lyric boards at a very critical period for the empresarios, and by her undoubted talent saved the situation and took without an effort the place Mdlle Siebs had previously occupied in public favour. We have no doubt there will be a gala night at the Colon Theatre on this occasion; none of our numerous 'prime donne' have better deserved of the public.

The Rosario papers describe that town as only fit in the last week for amphibious animals. There has been continual mist, fog, and rain; the streets are so many 'pantanos', and the houses half full of water.

Next Friday 24th, the feast of St. John, will be a holiday, civil and religious; the following Wednesday, the feast of St. Peter and St. Paul, will also be observed as a 'dia feriado.'

The sale of a portion of the late Dr Reid's library came off on Wednesday evening at the British Library. There was a very good attendance. Mr. Le Rosignol acted as auctioneer, and the result of his exertions was most satisfactory, everything being sold at very tolerable prices. Drs. Ayer and Cunningham, bought most of the medical works, and the Rev. Mr. Ashe, took a number of valuable books. Some tiger skins and other trifles were also sold. The Committee of the British Hospital purchased several medical works, and anatomical plates which they consider may be of use to whoever is appointed to succeed the late Dr. Reid as Surgeon to the Hospital.

We feel much pleasure, at the request of the Rev. Mr. Smith, in giving a place in this column to the following recommendation of a new religious work that has lately been issued from the press:—

A small work termed "The Bible Manual" has lately been issued by the enterprising publishers Nelson and Sons, which from its intrinsic merits ought to command an extensive sale. The author of it, Dr. John Lockhart, is one of the best classical scholars the University of Glasgow has produced. He has also for many years occupied a foremost place amongst the successful teachers of youth. His great experience has enabled him to find out the kind of work required to impress on the youthful mind the leading facts and ideas of the Divine Record, and to supply that illustrative information drawn from various sources, which is necessary to make that word interesting and intelligible to the young. We accordingly find the more important facts of Old Testament history and the rites and ceremonies of the Jewish economy fully and accurately stated. The same plan is carried out with equal success in all that relates to the lives of our Saviour and his Apostles, and founding and extension of the Christian Church. A brief account is added of the four great Empires of Antiquity, most necessary for understanding the fulfilment of Prophecy, the later period of Jewish history, and the rise of Christianity. It ought also to be mentioned that the book is so arranged that it can be used as a Catechism or read as a narrative. We cordially recommend it to the teachers of schools, where Bible knowledge is imparted, and to the heads of families who wish to imbue the minds of their children with the principles of that Word, which is given by the inspiration of God and is profitable for doctrine, for reproof, for correction and instruction in righteousness.

Mrs. Lynch and her children embarked on Thursday afternoon on board the City of Limerick, Captain Corbett, which sailed yesterday for Europe. There was a considerable crowd assembled on the mole to see her off; and as the Baby steamed away numerous Englishmen present raised a parting cheer to which she responded by waving her handkerchief in adieu. On Mrs. Lynch's arrival home a second and more interesting edition of the Stewart versus Gelot case may be expected.

The *Voz de Cuyó* contains a letter from Valparaiso, the writer of which says, the emigrés in Chile continue to dream plots against the internal order of this country, and that the articles in the Santiago press in favour of Lopez and Paraguay, have been instigated by the same parties. Some bands of 'gauchos' are said to have already passed the Cordillera.

General Camara, Lord Pelotas, will leave Paraguay towards the end of this month. It is said that Minister Paranhos will be created Viscount Cuyabá. This distinguished man well deserves any honours his Imperial master can confer on him; but he has acquired a position and fame in South America that no title, however high, can add to.

Mr. and Mrs. D. Alvear gave a house-warming on Thursday at their new residence, 118 Piedad. The splendid saloons were exquisitely decorated; there were a remarkable number of 'beauties' present; the supper was of the most 'recherche' kind; in fact perfection in a tertulian sense was attained.

One of the best contested games in the annals of the Buenos Ayres Foot ball Club took place at Palermo on Thursday last. The match arranged was Competitors in the last Athletic Sports versus Non Competitors, and considerable interest was manifested as to the result. The muster was not quite so large as was anticipated, but the punctual arrival of some of the Non Coms. attracted considerable attention and surprise among the initiated, and certainly betokened a most laudable interest in the game. Non Coms. won the toss, and the game proceeded with great spirit and varied success for an hour and a half, when an adjournment for lunch took place, no goal being thus far recorded, although one or two 'touches down' had been credited to either side. During this interval Non Coms. were strengthened by the welcome arrival of three or four belated brothers, and with the advantage of lunch and numbers in their favor were confident of securing a goal. Such, however, was not the

case, for although on resuming they managed to 'pin' their opponents for some time in goal, yet a splendid rush made by the Competitors at last carried the ball across the ground and resulted in a 'touch down.' The place kick, admirably judged by Sylvester, gave the Competitors the only goal scored in this most interesting match. Where all played so well, special mention would seem invidious, but that of Messrs. Bond and Tyndall on the winning side, and of Clarke, Lace, and Gregory on the losing, was pre-eminently good. A return match will be played on Friday next, when a very close and exciting game may be confidently expected.

LATEST FROM BANDA ORIENTAL.

Colonia, June 12.

It would be impossible to give a correct idea of the state of the Banda Oriental at this present time. Coloradoes are riding about in every direction, stealing horses and killing cattle. It is hard to say whether the Blancos or Colorados are the worst. Certain it is that to the latter we in this Departamento owe the greatest dislike; they have had no mercy on us, taking in most places every horse and mare they could find, and leaving us almost on foot. Exacting 'auxilio' of cattle from us all round, more by far than they required for the consumption of the troops. Foreigners are the principal sufferers in this, the natives saying that they only get paid by Government.

The Colorados have entirely left the Departamento, having gone to join the President at Florida. They take with them some 1,500 horses.

The Blancos are said to have entered Colla with a force of from 200 to 250 men. They are also said to be Matreros, men who have deserted from Colonel Ordoñez, and changed their 'devisa' to keep the Reds from coming in search of them.

It is quite laughable to witness the alarm of the 'pueblenos;' they are afraid to come out to the camp, and have a sentry posted on the church tower to give them warning. I expect the chief has even his 'duds' packed up ready to ship for Montevideo on the slightest alarm being given.

I doubt if Buenos Ayreans ever had the tenth part of the grievances to complain of that the Orientales have at this present moment.

The fact is this, and it must be quite evident to everybody, that they are being robbed of their time, their property, and their money also, and that mercilessly and hopelessly, for as long as the present state of affairs has the least likelihood of happening again; no matter what party has the Government, the same things that are being done to-day, must come to pass.

Everyone must agree with me that the country is not advancing in the least. The tide of immigration is in a manner stopped. For who would come to a country wherein there is no protection for life or property, and where a guerrilla warfare is constantly going on. The present is the fourth row that has taken place during the last two years; the first three were put down not by force, certainly; the Government ought to know how; we, I suppose, must affect ignorance of the treaties between the Government and its rebellious subjects, although we put up weekly with the different changes of our rulers, pay the taxes without grumbling, and allow our horses, cattle, &c. to be taken without even a protest. Cattle and horses they tell us are born in the country, and of course must be taken for the service whenever required, and particularly in times of war. The money we brought to the country and invested in those animals, has nothing to do with the matter at all, that is entirely overlooked.

Foreigners come here to make money; that is very evident, or they would not leave their native land where every comfort abounds, to pass a miserable existence here.

Very few there are, but have the idea when leaving home, that at some future day if fortune favour them they may return and rest in peace amidst old associations, so that most foreigners may be considered as only temporary residents here. That no doubt is the principal cause of their non-interference in the politics of these countries—but this cannot be expected to last—a day will come, when they or their sons will have a vote in the Legislature. And then let us hope that a better state of things than we at present witness, may be organized.

It is well known that the foreigner is the only worker and real advancer of the country. The poor native although he wished it ever so much, is not allowed to do so. No matter what he may be engaged in whether, commerce, agriculture, or shepherding; he must leave all, as soon as the least row gets up. When such a state of things is the case, how can it be expected, that they at least can do anything towards the improvement of their homes or their country.

The majority of the natives have no party feeling whatever. I have spoken to several, both officers and men, and asked them which party they prefer, whether the 'Blancos' or 'Colorados'; they say they don't care particularly for either, all they want is peace. Peace that they may be able to maintain their families and keep them from beggary.

The Oriental soldier is the cheapest in the world, I mean the 'Gaucho;' he gets no pay, often no clothing, only a strip of red cloth to tie around his hat. His food is taken from the estanciero as he goes along, all that he does get from the Government is a little yerba and tobacco every now and then. So that it is no wonder if when he goes to a foreigner's house, he asks for a biscuit or a glass of caña, well knowing that if he only leaves the horses alone he is sure to get both.

Soldiers are rarely uncivil, the non-commissioned officer is the worst, he, to show his power, often goes above his instructions.

I have shewn how they are robbed of their time. Now their property goes as well as that of the foreigner towards the maintenance of themselves and their comrades. There is a show made of paying the foreigner, but the poor native gets no recompense at all.

Their money too, of that they have been robbed systematically for years. They are forced to accept money, the real value of which they know nothing at all about, and which owing to its depreciation is made an excuse of by the retail dealer for charging one hundred per cent. above the real value of his goods.

But how can things ever be any better here as long as this guerilla warfare is carried on, as long as there are two opposing parties, both of whom are constantly striving for power. From what I can see, it would be nonsense to propose that the Blancos and Colorados fraternise and by thus doing free the country from a recurrence of those rows.

It is hard to tell when this war will end, it is quite likely to continue as long as the Flores war until the horses are all killed or done away with. To all appearances this seems to be little else but a war upon horses and cattle. This has lasted close on to three months now and not one single fight of any consequence has occurred,

And how is it all to end? Will the Brazilians do as they did before, come and put out the Colorados, and put in the Blancos; or will they do what they should have done long ago, take the place into their own hands, and make the River Plate their Southern boundary.

Something must be done; that is certain—let us hope that the Orientals may see their error and stop their continual squabbles. It certainly does not show much patriotism that they being so few cannot agree amongst themselves for the good of their country.

Yours truly,

N. D.

CENTRAL URUGUAY RAILWAY.

It seems that the Montevidean Government has given another concession for a railway, viz.. that from Colonia to a point on the extension of the Central Uruguay.

Now it must be evident that the granting concessions in this manner, when the railway we have is such a wretched failure, is putting the future possible resources of the country into very dangerous hands. A concession is, or ought to be, of great value to the concessionaire, but the rights *de jure* belong to the public, and it is a fraud on them to transfer these rights to parties who have done nothing to earn them, but who merely belong to the same political party as the existing Government.

This way of doing business is not likely to improve the credit of the Bandal Oriental in Europe; on the contrary, it shews a reckless disregard of the public interest, which will more fatally destroy Uruguayan credit than the mere existence of national bankruptcy and internal disturbances.

In the name of public decency and honesty (if such exist) the inhabitants of the Banda Oriental should imperatively call on the Government to cancel this concession, and leave the field open to men of position and capitalists.

It would indeed be difficult for a company started by Government friends here to find the capital, considering the information which will have reached England by this time—as long before the Railway could commence it is probable that the *Times* will have carried through the length and breadth of Europe warning sufficient.

It does not seem proper to allude to politics in connection with railways, but I cannot help remarking that the granting of the concession in question is highly impolitic.

Yours, &c.,

THOMAS MASON.

ON 'CHANGE.

	June 17, 1870.
Ounces,	400
Sovereigns	122½
Patacons	25
Nat. Bonds	68⅜

There was very little done in the Bond market today; prices are firm but the market is dull. For cash 6,000 at 68⅜. For July 15th 10,000 at 68, and 20,000 for same date at 68⅛. In the liquidation prices ruled somewhat weaker, but there is no animation whatever in the market.

It was said on 'Change that there will be strong opposition in Congress to the Government project for the thirty million loan. All the Mitre party are opposed to it, and it is thought that it will not pass.

The sale of the old corner house at Calles Piedras and Victoria in front of Gonsalez Moreno's house attracts notice. The house is so old that the price paid, $1,810,000, is merely for the site; Mr. Macias is the purchaser, and the price paid gives $2,800 m|c. per square vara, probably the highest price yet paid for building sites in even the most central parts of the city. The sales of the Puyredon lots also went off well, realizing from $6,000 to $7,000 per vara front.

Advices from Rio per Geronte are as follows—Exchange.—After the departure of the English packet the English Bank vainly endeavoured to support at 22½, to cover large amounts drawn at higher rates, but the news from the northern provinces being unfavourable, whither large remittances had been sent, rates at once declined to 22d for Bank and 22¼ to 22⅜ for private drafts.

Our anticipations of large orders from Europe are being realized, and instructions have reached here by the Patagonia to dispose of Government Stock and Treasury Bills, to remit the nett proceeds at the present rates.

Our closing rates are 22d for Bank and 22⅜ for private paper, with very few private bills offering. On Paris very little has been done at 425rs. to 430rs.

Discounts.—Money has been abundant for bills at short dates, and Treasury bills have been sought for by English Bank, which holds a large amount of disposable cash.

The steamer City of Limerick cleared to-day, she takes about twenty-five first-class passengers amongst whom are Madame Lynch and children. Madame Lynch went on board yesterday, but returned on shore to-day to sign certain powers of attorney. She left again in the afternoon.

In exchange there was nothing done, and no bills passed for the City of Limerick.

On the 24th inst. Mr. Madero will sell by auction the steamer General Gelly and four launches, to wind up that Company.

The attendance at Dr. Leeson's auction was unusually large, including numbers of foreign merchants and native capitalists. The prices realized were often fabulous, but the furniture was certainly very elegant, viz.—

6 chairs and sofa, Padre Machado	$7,000
Chiffonier, Casares,	3,000
4 cromo-lithographs, Aguirre,	2,000
Gilt clock and candelabra, Elortondo,	6,600
2 gaseliers,	5,000
Sofa and two chairs, Aguirre,	3,000
Wardrobe, "	6,000
2 brass beds "	6,400
Bookcase, Casá,	6,200
A Davenport, Aguirre,	1,700
Dinner table and set,	21,000

We congratulate Don Mariano Billinghurst.

In the produce markets very little doing. Some small lots in the South Plaza at 62 and 63. All the dry hides in the market at from 142 to 150. Some bordalesas of tallow at 15 rls., and 120 arr. grease in panzas at 40. Wheat at from 100 to 143. Maiz 55. Barley 64. Flour 27 and 28.

Respecting the clippers Don Diego and Parejero, we have been requested to state that the Don Diego was bound for Antwerp, and the Parejero for Liverpool. A fleet of vessels bound for Antwerp was detained in the Channel, and probably the Don Diego was amongst them.

The Biela is now momentarily expected. Up to the closing hour of the Bolsa she had not been telegraphed.

Telegrams from Montevideo announce as follows:—

The Adelo Louise saved 28 Italians from the burning ship Maria Barrabina; 100 others were lost. The captain has arrived here very sick.

A party of of 100 Blancos is in sight of San José.

There was nothing of importance from Entre Rios to day. In Rosario a very unpleasant dispute between the Port Captain and the Dutch Consul has arisen. Mr. George Kean, ship broker of Rosario, has sent us the following maritime news.

FALLACIES OF THE FACULTY.

The stomach is the ruling organ of the system. If the digestion is imperfect, every member, every gland, every muscle, every nerve and fibre is more or less out of order. All the fluids are depraved. The brain is clouded. The spirits are depressed. All dyspeptics know this to be the truth. It is not, however, half the truth. Columns would be required to enumerate the pains and penalties of dyspepsia, nor could any pen do them justice. Tens of thousands feel them; no man can describe them.

Can they be prevented? Can they be relieved. Can they be banished at once and for ever? unquestionably they can. No dyspeptic has ever taken HOSTETTER'S STOMACH BITTERS in vain. Believe no one who says the complaint is incurable. This great vegetable stomachic will eradicate it—is eradicating it in thousands of cases over which medical practitioners have shaken their heads ominously, saying, "Nothing can be done."

The faculty has its fallacies. One of them is that indigestion is the most difficult of all the ordinary ailments of mankind to combat and subdue. This is a mistake. Nothing can be easier than to conquer it if the true specific be administered. This vegetable combination which has become famous throughout the civilized world as HOSTETTER'S STOMACH BITTERS is an antidote to the disease which has never been known to fail, and fortunately it is every where procurable. If you wish to fool with dyspepsia, try the pharmacopœia prescriptions. If you want to root it out and prevent its recurrence, take the Bitters daily. There is no discount on the testimony in its favor. If there is a man or woman who has ever tried it for indigestion without being benefitted, the fact has not transpired. Universal uncontradicted praise avouches its wonderful tonic virtues. 11

Hennesssy's Brandy.

The undersigned beg to inform the Public, that they have concluded arrangements with Messrs. JAMES HENNESSY and CO., To receive regular and constant supplies of their well-known Brands of Cognac.

The first shipment has arrived, per "Suffren," and is now on Sale.

This Brandy is so well known, and so fully appreciated by the English Consumers, that anything we could say to recommend it would be superfluous, and we would therefore simply draw attention to the following Table of Exports of Cognac from Charente to Great Britain, for the twelve months ending the 30th of June 1869:—

	Puncheons.	Cases.
James Hennessy and Co....	9,462	214,885
Martell	8,340	113,654
Otard, Dupuy, and Co.	2,668	8,511
Jules Duret and Co.	456	6,371
Jules Robin and Co.....	366	6.247
Sundries.....	13,034	198,042
Total.....	34,316	547,740

For the year ending 21st December, 1869, Hennessy exported to Great Britain 10,513 Puncheons, and 282,768 Cases, being more than a third part of the total exports for the same destination.

In Great Britain, in Australia, and in India Hennessy's Brandy commands the preference, and fetches a higher price than any other Brand.

As a protection against falsifications, our name is attached to Messrs. Hennessy's Trade Label.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operatious, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIAL USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Children, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Whooping Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the word "Dr. J. Collis Browne" on the Government stamp Overwhelming medical testimony accompanies each bottle.

MARAVILLA COCOA—*For Breakfast.*—The *Globe* says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers, discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate Steam Mills—Brick Lane, London.

BISHOP'S
GRANULAR EFFERVESCENT CITRATE OF MAGNESIA,
Introduced and Prepared by
ALFRED BISHOP,
Manufacturing Chemist,
17 and 18 SPECK'S FIELDS, MILE END NEW TOWN, LONDON.

This perfectly white and delicately clean granulated preparation possesses remarkable effervescent qualities, which far surpasses the ordinary Seidlitz Powder in its cooling, refreshing, and mild aperient properties, as well as in its flavor as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable and mild effect.

N.B. The genuine has the name of BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron, Citrate of Quinine, Citrate of Quinine and Iron, Carbonate of Lithia in Tubes, Citrate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

IN CHANCERY.—CAUTION—BISHOP'S GRANULAR EFFERVESCENT CITRATE OF MAGNESIA.—Mr. Bishop, having discovered that the Label which he had used since 1861 was being imitated, recently applied to the Court of Chancery for an Injunction to restrain imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs, and destroy the Labels complained of. —jan14

BETT'S CAPSULE PATENTS

To prevent INFRINGEMENTS NOTICE is HEREBY GIVEN, that BETT'S NAME is ON EVERY CAPSULE he makes for the principal merchants in England and France, thus enabling vendor, purchaser, and consumer, not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied. The Lord Chancellor, in his judgment on the 8th of February, 1868, said that the Capsules are not used merely for the purpose of the ornament, but that they are serviceable in protecting the wine from injury and insuring its genuineness.
